

## **School Lunches**

We have a kitchen on site where fresh food is cooked daily. Rigorous monitoring is in place to ensure that the lunch provision meets all the current government nutritional guidelines. Children's feedback is responded to as much as possible and the school councillors lead a consultation with all the children about new menu proposals.

Our policy is to encourage all children to have school lunches. Packed lunches are discouraged and only permitted for children with special dietary or medical requirements. If permission is given the packed lunch must comply with government standards. The school can offer guidance to parents on this matter if required.

A new catering company 'Principles' was given the contract to provide lunches from February 23rd 2020. We work closely with them to ensure that children are being offered meals they enjoy which comply with healthy nutritional standards.

## **Breakfast Club**

We have a breakfast club which is open daily, Monday to Friday, from 8.00am until 8.55am. The Club provides a healthy breakfast consisting of cereal, fresh fruit, boiled eggs, toast, juice, milk and other beverages if required. There is a small charge for this club.

## **Snacks**

All children have access to free fruit at morning break\*. Children who attend after school clubs are permitted to bring a small, healthy snack, which are monitored to ensure that it complies with our snacks policy.

Birthday treats are not shared in school as these are high in sugar and most parents would prefer their child was not offered them
